

Rentals

With competitive rates & the widest range of equipment available for short or long term rentals, we are constantly adding new equipment and look for your input on our future selections.

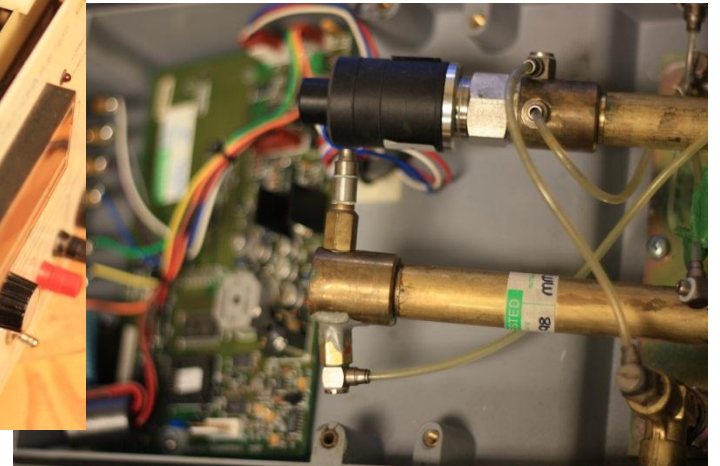

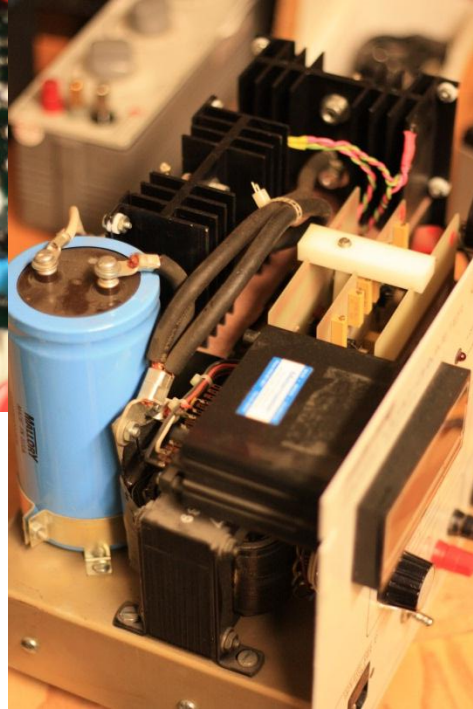

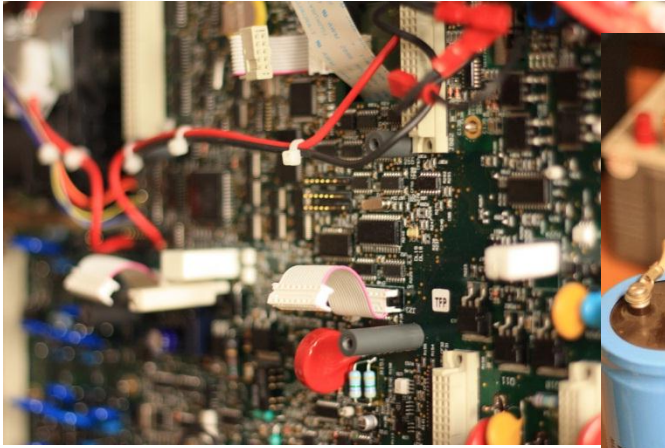

Calibration

Accutech has a growing inventory of state of the art calibration standards. These enable us to perform precise calibration at sensible prices for the following fields:

Electrical, Electronic, Temperature, Pressure, High Voltage.

All calibrations carried out are traceable to National Standards with certification at no extra charge. On-site calibration services are also available.

Repair

To complement our calibration service, we offer a repair/service on instruments and electrical test equipment. Any equipment found to be defective or operating incorrectly can be looked at by our trained technicians. A free no obligation quotation will be provided.

Sales

We have access to all the main manufacturers of test and measurement equipment. This results in us receiving the best discounts and deliveries available and passing them on to our customers. We also sell our used rental equipment at a reduced rate for the times for quick possession and discounted prices.
